

U-Series 2RU Housing

Description

The U-Series 2RU Housing can house up to 12 U-Series cassettes with the capacity to scale up to 288 LC ports and 2304 fibers using an MPO interface. Compact to facilitate installation in shallow-depth racks, it allows for front and rear cassette installation and is compatible with U-Series MPO, pre-terminated, and splice cassettes.

Features and Benefits

- Up to 288 LC ports in 2RU
- Compact size for installation shallow-depth racks
- Front and rear cassette access
- Cable management accessories
- Up to 3456 fibers using an MPO interface
- Secure, easy-access lock-and-release mechanism
- Facilitated patch cord installation

Applications

- Data center
- Enterprise / Campus
- Central Office / POP
- LAN

Specifications

Element	Characteristic
Height	88mm

Element	Characteristic
Width	484mm
Depth (full configuration with door)	139mm
Weight (without packaging)	1.97 kg
Weight (with packaging)	2.31 kg
Maximum fiber count	144f (LC/SC), 288f (LC), 3456f (MPO)
Maximum number of U-Series adapter plates	12
Cable entry	Left and right
Operating temperature	-20°C to +50°C
Designed in accordance with	TIA/EIA 568.C, ISO/IEC 11801, EN 50173, IEC 60304, IEC 61754,
Materials compliant to	RoHS, Reach / SVHC

External Housing - Side Wall

Material	ABS
Color	Black

External Housing Top and Bottom Plate

Material	Aluminum
Color	Black

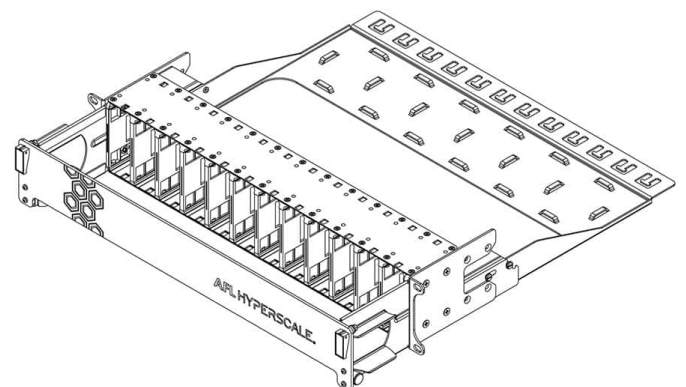

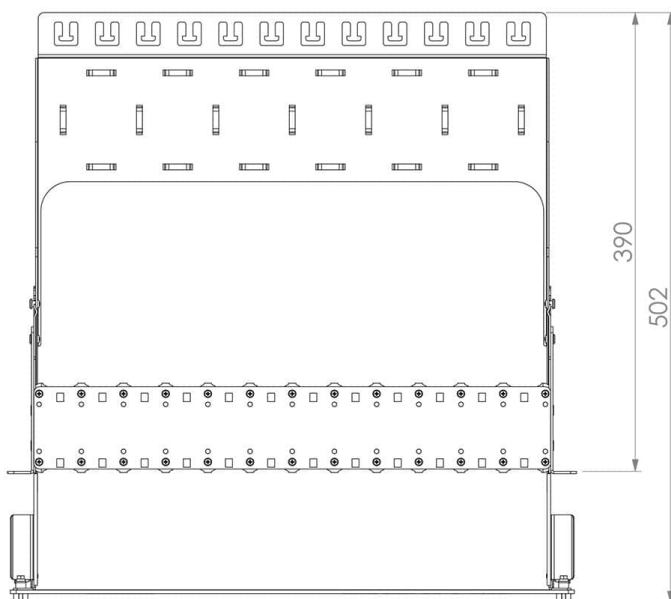

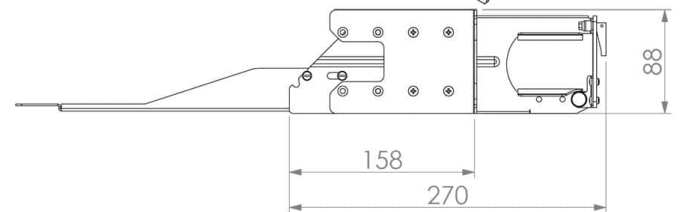

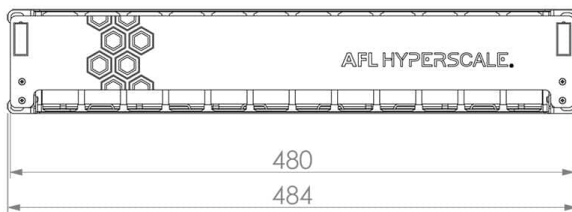

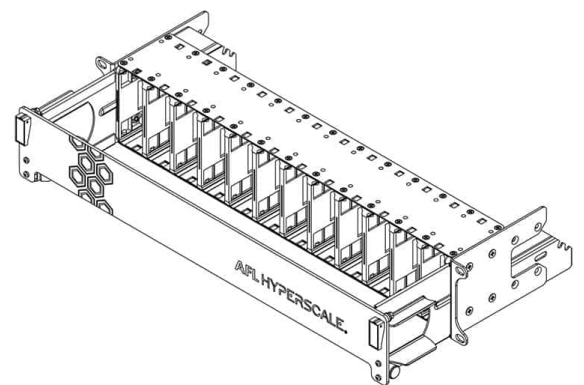

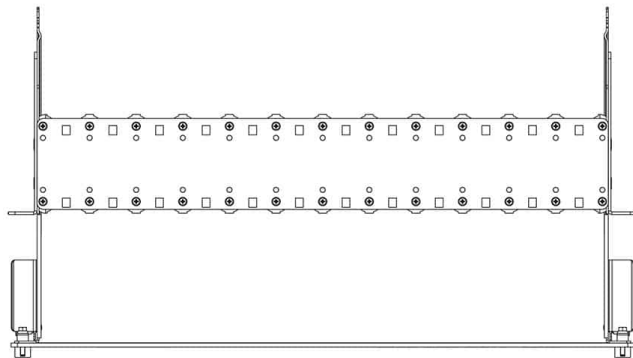

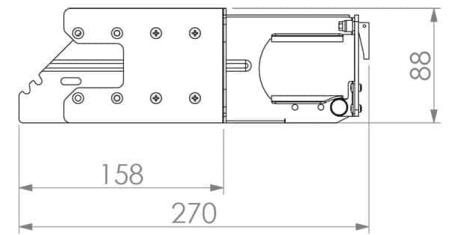

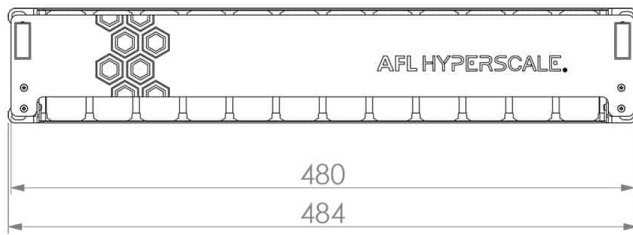

2RU Side Brackets, Door Mount Plate

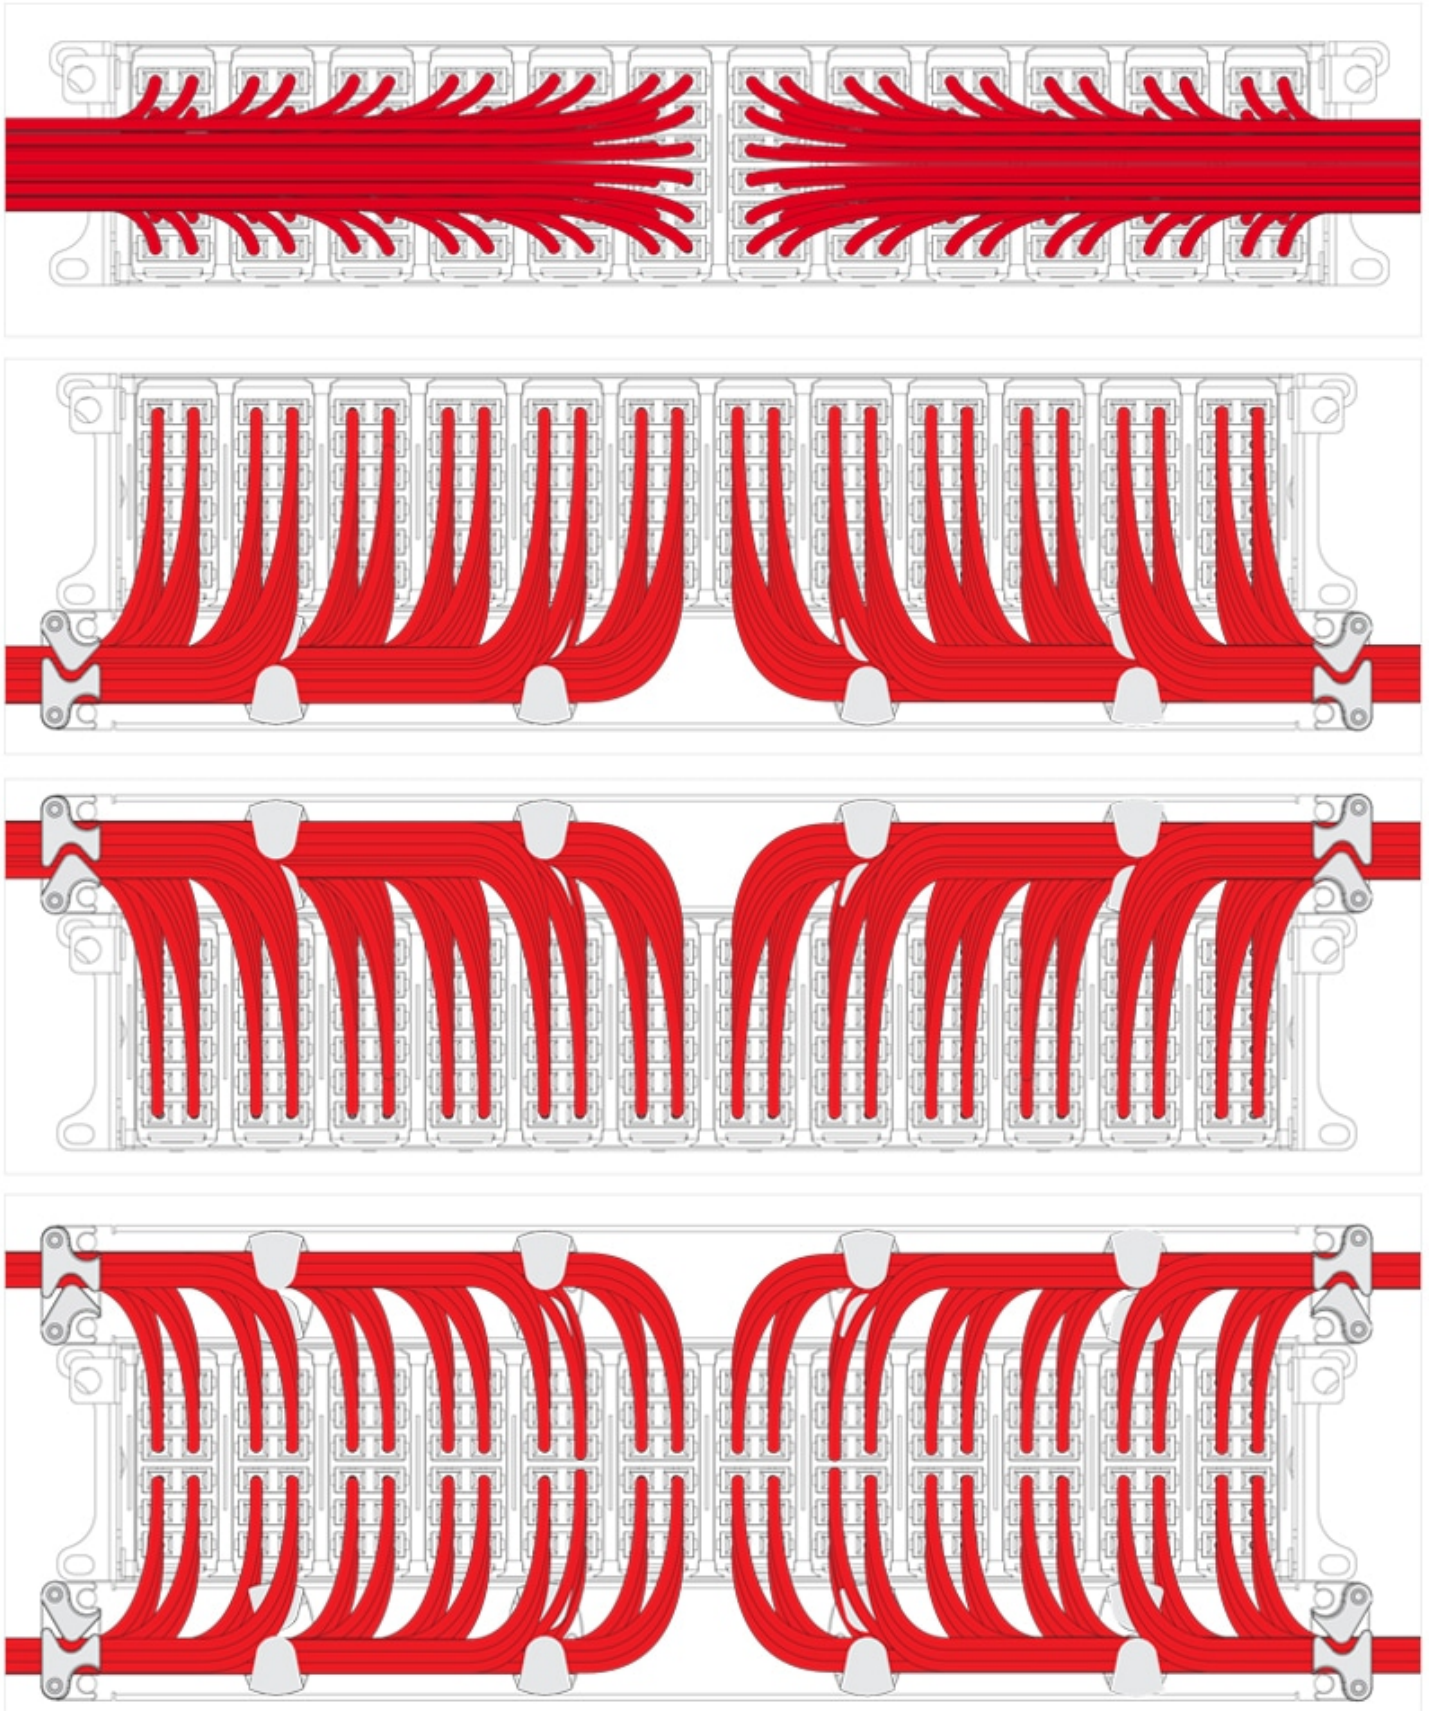

Material	CR4 Steel
Color	Black

2RU Front Door

Material	Aluminum
Color	Black
