EYEBOLT EXPANDING 1A

Part Number: 993797

Description

Expanding eyebolt fixings are widely used in the cable installation industry to pass dropwire through the forged eyebolt for overhead cable fixing. These fixings can be installed in concrete, brick or masonry materials.

Manufactured from forged carbon steel, Zinc plated and yellow passivated: 10-15 micron.

Expected corrosion resistance: 25 Years (dependent on environment)

Sleeve Size	Sleeve Length	Ring Diameter	Overall Length	Thread Diameter	Thread Length
8mm	35mm	15mm (ID) 30mm (OD)	92mm	6mm	53mm
